

INBRe-Communication

We congratulate the Fellows and Scholars on their successful bid for INBRE summer research opportunities across the state.

INBRE Fellows will work full-time in an established faculty lab for the summer. They will do research guided by a faculty member, attend weekly training and seminar presentations and present their research in a professional setting at the Annual INBRE Research Conference on August 8, 2007. 

The **INBRE Scholars Program** spans two weeks at Boise State University. During this time, they will work with Dr. Juliette Tinker and graduate students to conduct research. Twelve Scholars have been awarded, and they will present as a group at the INBRE Research Conference.
